REASONS FOR ALLOWANCE

1. Claims 55-59 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates generally to the art of digital display systems, and more particularly to controlling techniques for display systems employing spatial light modulator. Independent claims 55 and 57 are directed to methods for driving an array of micromirrors of spatial light modulator used in a display system. The prior art fails to disclose the unique sequential steps for driving an array of micromirrors. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
